Mission: The Whole Community Project (WCP) facilitates a collaborative effort of organizations and individuals to support the health and well-being of *everyone* in Tompkins County. WCP aims to be a place of dialog and action for all the communities that make up Tompkins County. It will take a whole, diverse community to make a difference. As part of the national Food Dignity Project, the Whole Community Project gives priority to inclusion of and support for food insecure community members who have traditionally been underrepresented in food system work.

The work of the Whole Community Project, under the directorship of Ethel Jemila Sequeira, has been partially supported by the Food Dignity project (Agriculture and Food Research Initiative Competitive Grant no. 2011-68004-30074 from USDA National Institute of Food and Agriculture (www.fooddignity.org)). The Food Dignity project supported Collaborative Pathway Modeling by Monica Hargraves and Cecilia Denning with the community partner organizations as part of the action research.
